

Call the Be Happy line **317-278-7700**  
Monday-Friday 8 AM-6PM EST  
for a **FREE** consultation!

### What is Be Happy?

Be Happy is a **FREE** child psychiatry access program designed to address child & adolescent psychiatry shortages. The goal of Be Happy is to increase the capacity of primary care providers to support the behavioral needs of children in their care.

Our mission is to partner with primary care providers across the state of Indiana to continue delivering high-quality, best practice care for pediatric patients concerning mental health care and substance use concerns.

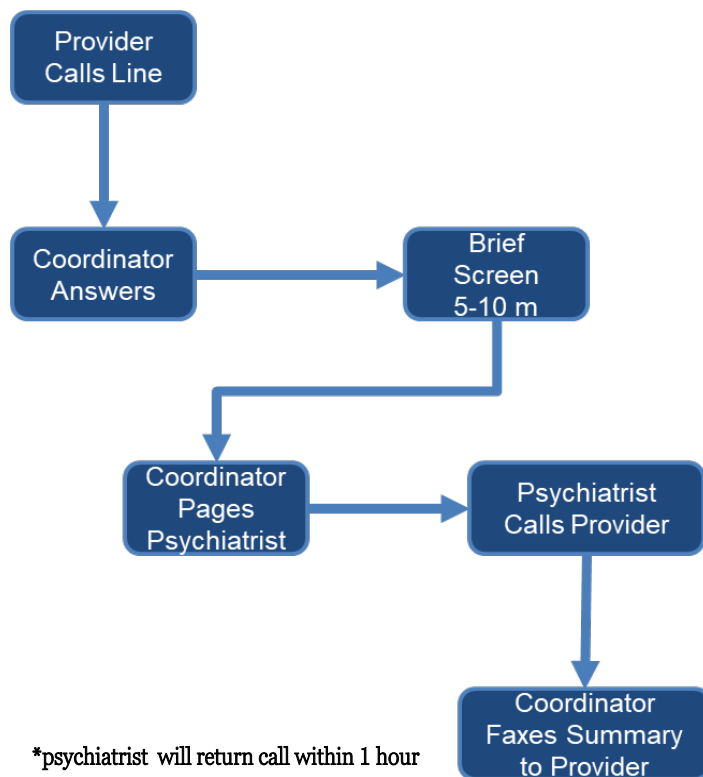

Be Happy supports mental health needs of children and adolescents by providing:

- Provider-to-provider **phone consultation line** to assist in medication management, assessment, diagnosis, screening & treatment planning.
- Community **referral support** with up-to date psychiatric & community resources
- **Educational opportunities** related to pediatric mental health & substance use concerns

### Who can receive consultation services?

- Any health care professionals (including physicians, NPs, psychologists, nurses, social workers, etc.) in the state of Indiana who work with youth & families can use Be Happy.
- The service is **FREE** & available to **ALL** primary care providers in Indiana!

### How does Be Happy work?
