2026 SPRING SUMMIT

Building Resilience Through Strategic & Radical Partnerships

Radical partnerships in radical times means fruitful interdependence. We don't want to just survive the lean years; we want to build a more resilient ecosystem that is greater than the sum of its parts. This summit brings together **organizations and leaders who are paving the way with creative partnerships** that improve service delivery and result in greater community impact.

This **free hybrid event** is open to caregivers, community leaders, professionals, and anyone interested in advancing partnerships. Community resource tables will be available throughout the event. *We can't wait to see you!*

For more information, scan the code below or email **info@mhamichiana.org**.

THURSDAY, APRIL 16
